

FACTSHEET UNITED STATEW Import/export first half year 2022

Fruit & Vegetable Facts; Jan Kees Boon; +31654687684; fruitvegfacts@gmail.com

In de Verenigde Staten ook in eerste helft 2022 weer meer verse groenten en fruit ingevoerd

Meer dan de helft uit Mexico

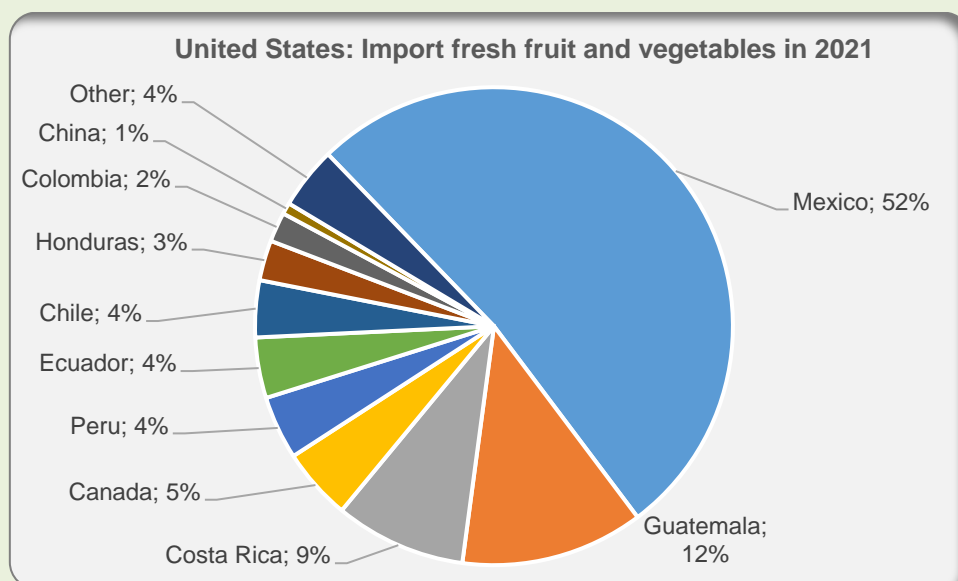

De Verenigde Staten is wereldwijd by far grootste importeur van verse groenten en fruit en de import blijft groeien. Ook in de eerste helft van dit jaar. In 2021 importeerde de Verenigde Staten 21,5 miljoen ton verse groenten en fruit. Duitsland is wereldwijd de 2^{de} importeur met een hoeveelheid van zo'n 9 miljoen ton. In de eerste helft van dit jaar groeide de import van de Verenigde Staten met 3%. Meer dan de helft van de import is afkomstig uit buurland Mexico. In de 1^{ste} helft van dit jaar bleef de import uit land echter wel iets achter bij die in de eerste helft van het afgelopen jaar. De top-3 van de import uit Mexico bestaat uit tomaten, paprika's en avocado's. Andere belangrijke leveranciers van de Verenigde Staten zijn Guatemala (vooral bananen), Costa Rica (ananas en bananen), Canada (komkommers, tomaten en paprika's) en Ecuador (vooral bananen).

Steeds meer uit Peru; herstel import uit Chili

Peru en Chili zijn resp. de 5^{de} en 7^{de} leverancier van verse groenten en fruit aan de Verenigde Staten. De import vanuit Peru blijft maar groeien. Dit jaar was het in de eerste helft weer 18% meer dan vorig jaar en op jaarbasis zal de grens van 1 miljoen ton worden overschreden. Druiven en uien zijn de belangrijkste producten die uit Peru worden ingevoerd. Inmiddels is blauwe bessen de nr. 3. Vorig jaar was dat voor het eerste meer dan 100.000 ton. Asperges, avocado's bananen en mandarijnen zijn de andere belangrijke importproducten uit Peru.

De import uit Chili leek over z'n hoogtepunt heen maar in de eerste helft van dit jaar is de import uit Chili toch weer met ruim 10% gegroeid. Druiven is veruit het belangrijkste product.

Tot voor een paar jaar terug werd er nog een kleine 20.000 ton paprika's uit Nederland ingevoerd maar vorig jaar was dat nog maar 1.400 ton. Uien (6.100 ton) en rode bieten (5.300 ton) waren in het afgelopen jaar belangrijker.

Minder export; veel zoete aardappelen naar Nederland

De Verenigde Staten is ook een grote exporteur. Jaarlijks gaat het hierbij om zo'n 6 miljoen ton. De export daalt wel en dan vooral de export van In eigen land geteeld product. De re-export nam wel steeds toe maar in de eerste helft stagneerde deze. Bij de re-export draait het vooral om bananen naar Canada..

Ook bij de export van in de Verenigde Staten zelf geteeld product is Canada met afstand de belangrijkste afnemers. Mexico is de nummer twee en ver daarachter volgen Korea, Japan, Taiwan en Hong Kong.

Nederland en het Verenigd Koninkrijk volgen daarna. Hierbij gaat het vooral om zoete aardappelen.
